EDUCATION

University Of Jaffna

Bachelor of Information Communication Technology (Hons)

Jaffna, Sri Lanka

2021 – 2025

EXPERIENCE

GitHub Contributor and Project Collaborator

Self-Driven Projects

- Contributed to open-source projects like **sef-global/scholarx-frontend** and **codse/animata** by developing features, fixing issues, and improving code quality.
- Actively engaged in the GitHub community, answering developer queries and improving projects.
- Collaborated with teams to gain experience in version control, code reviews, and real-world feature implementation.

PROJECTS

Farm To Market Food Web | *Next.js, Sanity CMS, Stripe, TypeScript*

June 2023 – Present

- Developed a web application connecting local farmers with consumers for fresh, locally-sourced produce.
- Integrated Sanity CMS for real-time content management and authentication for user security.
- Designed an intuitive user interface using Next.js to enhance user experience.

TaskList WebApp | *HTML, CSS, JavaScript, Node.js*

March 2023 – May 2023

- Built a task management web application with a clean, responsive interface.
- Implemented backend logic using Node.js for task creation, editing, and deletion.
- Focused on creating a user-friendly workflow to enhance productivity for end-users.
